

Infection Prevention and Control in Dialysis Settings

Nebraska ICAP works with UNMC, Nebraska Medicine, and NE DHHS to build and strengthen general Infection Prevention and Control capacity in various healthcare facilities. *

- ✓ **Now offering assessments/ICARs for inpatient dialysis settings**
- ✓ Perform **free** onsite and/or remote infection prevention and control (IPC) assessments/ICARs (upon request) to identify improvement opportunities
- ✓ Develop strategies, tools, and resources to help with identified IPC gaps mitigation
- ✓ Serve as a just-in-time resource to address IPC questions for IPC program leaders
- ✓ Build basic IPC remote training program for staff responsible for IPC activities in their settings

** Supported by the NE DHHS HAI program.*
